

## Hollandia sunroof features

- **VENUS® SAFETY GLASS** with its special grey tint provides protection from 99% of the sun's heat and UV. Ideal for the Australian climate and standard on all glass models.
- **SOFT-TOUCH CONTROLS** are standard on Hollandia 300, 700-II and 900 electronic models. You don't need to hold the button to open or close the sunroof, as a quick touch will activate the selected function.
- **PROGRAMMABLE OPEN POSITIONS**  
Your 2 favourite positions can be set for the Hollandia 300. The Hollandia 900 model has one programmable position.
- **VENT POSITIONS** can be varied to adjust the required air-flow.
- **AUTO CLOSE** activates each time the ignition is turned off. With the H300 and H900 this function works when the roof is in both the tilt and the slide position. With the H700-II auto close works only from the slide position. You can simply override this function with the touch of a button if you wish to leave the sunroof open whilst parked.
- **RAIN SENSOR** with the H300 and H900 this is an option which allows you to park your car and leave the sunroof open for ventilation on a hot summer's day. It will close the sunroof at the first drops of rain when your vehicle is unattended. The sensor is usually located on the windscreen and detects light disturbance caused by rain drops.
- **VEHICLE SAFETY SYSTEMS** like air-bag curtains are not interfered with. Side Impact Protection System (SIPS) bars are replaced with a TÜV-approved SIPS replacement, called a Roof Stiffener Replacement system – where required. (TÜV is an independent German testing and certification authority).
- **ROOF DVD SYSTEMS** can still be fitted when the vehicle has a Hollandia sunroof.
- **INTERIOR LIGHTS** are simply relocated and roof consoles modified to accommodate the sunroof, as required.
- **INTERIOR CLIMATE** is enhanced with Hollandia Venus® safety glass. A tilted sunroof used in conjunction with air-conditioning provides a regular removal of stale air from within the vehicle.
- **3 YEAR WARRANTY** through Webasto's Australia wide network of authorised Hollandia Sunroof installers.

Manual

- Tilt-up glass panel
- 2 positions
- Venus® safety glass protects against 99% of the sun's rays
- Trim shell interior finish
